MAYORS CHALLENGE

Announcing Our 5 Winners!

SOLVE IT. SHARE IT.

Bloomberg Philanthropies is inspired by the opportunity to find and spread innovative local solutions to national problems. We created the Mayors Challenge to celebrate the creative problem solving and incredible innovation that is happening in city halls from coast to coast. The five boldest ideas with the greatest potential for impact win funding as well as national and local recognition.

This challenge is all about identifying a need, solving a problem, and sharing local knowledge so that other cities and citizens can benefit from the insight and actions of their peers.

Capital and the Integration Initiative

The Catalyst Fund is also a critical component of the new Living Cities Integration Initiative, an \$85 million initiative underway in five cities to support game-changing innovations that address systematic and intractable problems affecting low-income people. Through the Integration Initiative, Living Cities is providing a package of at least \$15 million in grants, commercial loans and debt from the Catalyst Fund to each of the selected cities that are challenging traditional ways of doing business to improve access to education, housing, health care, transit and jobs for their residents.
